

# coaxial valve

## type FCF 80

### 5-FCF 80

valve type with pilot valve

**2/2 way valve** externally controlled  
**pressure range** PN 0-40 bar  
**orifice** DN 80 mm  
**connection** flange  
**function** valve normally closed symbol **NC**  
 valve normally open symbol **NO**

**△** Above stated body materials refer to the valve port connections that get in contact with the media only!

**design** pressure balanced, with spring return

**body materials** ① aluminium ②  
 ③ ⑤  
 ④ ⑥

**valve seat** synthetic resin on metal  
**seal materials** NBR, PU PTFE, FPM, PE

**details needed for main valve**

- orifice
- port
- function NC/NO
- operating pressure
- flow rate
- media
- media temperature
- ambient temperature
- type of actuation

**details needed for pneumatic actuation**

- nominal voltage
- type of protection
- actuation pressure range min/max
- pilot valve type

**details needed for hydraulic actuation**

- actuation pressure range min/max
- hydraulic control valve function

**△** The valves' technical design is based on media and application requirements. This can lead to deviations from the general specifications shown on the data sheet with regards to the design, sealing materials and characteristics.

**△** If order or application specifications are incomplete or imprecise there exists a risk of an incorrect technical design of the valve for the required application. As a consequence, the physical and / or chemical properties of the materials or seals used, may not be suitable for the intended application.
